Remember friends, they were fun  
But now you're gone  
More time, less motivation  
I can't remember the last time I went out  
Why is everyone obsessed with animal crossing right now

I've been staying up till 3 am and sleeping until noon  
Got dressed up just to sit in my living room

I miss my friends  
And toilet paper  
Overpriced coffee  
Go get a burger  
I'm gonna kiss my mom and hug someone the second that this thing is done  
I miss my friends  
Yeah and toilet paper  
Toilet paper

Mask on my face, mask in my hair  
Knowing everything is soon gonna be okay  
Talk to my mirror and laugh  
When I realize that's the most human contact I made  
I'm tired of being alone  
It sucks at home  
I had my birthday in quarantine  
Watching tiktoks that make me feel single af  
Slowly but surely going insane

Never thought my dream of doing nothing would come true  
Well it came true  
Totally uncool

'Cause I miss my friends  
And human interaction  
Normal routine  
Football matches  
Having the option to go out though generally I'd probably stay home  
I miss my friends  
And human interaction, yeah

Running, baking, reading, cleaning, eating, sleeping, dancing, streaming, cooking, painting, meditating, singing, drawing, gardening, playing pubg, watching movies, surfing YouTube, painting and sharing memes, getting depressed, crying, doing puzzles, running and binging tiger king

I miss those days where I could go eat sushi  
I want to eat my mom's homemade food  
Gonna throw a pot luck  
Hug everyone  
I can't wait 'til this thing is done

I miss my friends

Toilet paper  
Overpressed coffee  
Go get a burger  
Want to kiss my mom and hug someone the second that this thing is done

Please don't cough cough cough near me
