

## Survive

Madilyn Bailey

All the way down, finding my way around  
Stars at night to cover me  
Back and forth, searching for my way north  
Unbroken ground, I'm wandering

Love is around, love is around, baby  
Tryna' get out, tryna' be found and maybe,  
I've got to get lost to get where I'm going

Like roses, we're only here for a moment  
Ashes to ashes  
Mountains will always need to be climbed,  
But we only got one foot at a time  
Our voices, tryna' be more than just noises  
Echo to echo  
Nobody gets to leave here alive,  
Don't just survive (don't just survive)

Heaven and hell, dancing inside myself  
Music plays like a symphony  
Ebb and flow, battles they come and go  
There's calm inside the catastrophe

Love is around, love is around, baby  
Tryna' get out, tryna' be found and maybe,  
I've got to get lost to get where I'm going

Like roses, we're only here for a moment  
Ashes to ashes  
Mountains will always need to be climbed,  
But we only got one foot at a time  
Our voices, tryna' be more than just noises  
Echo to echo  
Nobody gets to leave here alive,  
Don't just survive (don't just survive)  
Nobody gets to leave here alive,  
Don't just survive (don't just survive)

Like roses
