

Run Away with Me

Madrugada

Fall
Into the night
Falling out of the light
And into the night

Fall
Into the night
Falling out of the light
And into the night

And I'll form moons, one shadow, one lone bird, ah
And I will form one tree, one shadow, one bird
Oh, help me clear away
Out of this place

Run away with me
Run away with me
Run away with me
Run away with me
With me

Clear away from here today
[...] free from the branches and the fingers of the woods
Tonight, celebrating my ocean, sleep like fish in silent dream

Fall
Into the night
Falling out of the light
And into the night

Fall
Into the night
And I will form moons, one tree, one shadow, one bird
Oh, I have cleared away
Out of this place

Run away with me
Run away with me
Run away with me
Run away with me

Oh run away with me (away)
Oh run away with me (away)
Oh run away with me (away)
Run away with me

Oh, I have cleared away
Out of this place
