

Enemy

Mads Langer

I always knew that love would kill
but I never thought I'd be your friend
My mind was set at ease all the time
'Till the day you said this is the end

That's when I went from lover to friend,
that's when we changed from lovers to friends
I'll always be your friend until the day I die
I'll always be your lover in the state of denial

and now I'm just your enemy
The friend that wanted more than just your company
I wish that we were lovers in the 70'es
You want me as a friend,
but that's the last thing that I wanna hear

I'll always be your enemy
the friend that wanted more than just your company
I wish that we were lovers in the 70'es
You want me as a friend,
but that's the last thing that I wanna hear

I never knew that you would kill
You shot me down and left me here
My blood is flowing through the streets at night
I wonder if you even care

That's when I went from lover to friend
That's when we changed from lovers to friends
I'll always be your friend until the day I die
I'll always be your lover in a state of denial

And now I'm just your enemy
The friend that wanted more than just your company
I wish that we were lovers in the 70'es
You want me as your friend,
but that's the last thing that I wanna hear

I'll always be your enemy
The friend that wanted more than just your company
I wish that we were lovers in the 70'es
You want me as your friend,
but that's the last thing that I wanna hear

I'll always be your enemy
The friend that wanted more than just your company
I wish that we were lovers in the 70'es
You want me as your friend,
but that's the last thing that I wanna hear

I'll always be your enemy
The friend that wanted more than just your company
I wish that we were lovers in the 70'es
You want me as your friend,
but that's the last thing that I wanna hear
