

Stop Me

Mads Langer

I know you didn't find me
Happy like before
And everything is ugly
Dark angel at your door
I've been up all night
Dreaming 'bout the light
I brought you broken flowers
Still you came back for more
Back for more

Stop me standing at the edge now
I wanna hear you say some cliché like
"I need you, more than anything"
Love me, find a way somehow
You know how I always chase the darkest place
It's such a waste, baby, stop me, stop me

I don't want to want you
As badly as I do
Full on paranoia
It's selfish and it's cruel
I'm the quiet rain
That never stops falling
I wonder why you stay here
I need this more than you
More than you

So stop me standing at the edge now
I wanna hear you say some cliché like
"I need you, more than anything"
Love me, find a way somehow
You know how I always chase the darkest place
Stop me, stop me

My attention
Fixed on you
Hold it together
I'm light as a feather
In the wind

Stop me standing at the edge now
I wanna hear you say some cliché like
"I need you, more than anything"
Love me, find a way somehow
You know how I always chase the darkest place
It's such a waste, baby, stop me, stop me
