

Let Somebody In

Magnum

C **G**
When did you stop looking homeward
F **C**
Deep in trouble, endlessly
C **G**
Just like a ghost across the water
F **C**
You disappeared quietly
Am **G** **Am**
Now everyday seems to long
G
And everything just goes wrong
Am **G** **Am**
So when do you start to live again
G
Oh what a way for this to end

C
You better let somebody in
G
No open door to anything
Am
You better let somebody in
C **Am** **G**
The times growing shorter
C
Let somebody in
G
You're gonna lose it all again
Am
You better let somebody in
C **G**
Before your blood turns to water

C **G**
Now you get lost in your own time
F **C**
Hide your secrets far away
C **G**
Don't count the cost when you're falling
F **C**
Don't have the answers so they say
Am **G** **Am**
When everyday brings you down
G
You're just a face in the crowd
Am **G** **Am**
Cause you don't try, you don't pretend
G
Oh what a way for this to end

C
You better let somebody in
G
No open door to anything
Am
You better let somebody in

C **Am** **G**
The times growing shorter
C
Let somebody in
G
You're gonna lose it all again
Am
You better let somebody in
C **G**
Before your blood turns to water

D **Bm**
I thought that I really knew you
D **A**
But that can't be right
D **Bm**
And no one could ever find you
D **A**
Lost in the night
D
You better let somebody in
A
No open door to anything
Bm
You better let somebody in
D **Bm** **A**
The times growing shorter
D
Let somebody in
A
You're gonna lose it all again
Bm
You better let somebody in
D **A**
Before your blood turns to water
