

Long Days Black Nights

Magnum

Enter the sacred heart
What's in your keeping?
Caught on the outward flight
Careless and torn apart

It's too late to feel the pain
All your devotion
Forever by your side
Now you don't like the game

But I know what you're going through
In your own world
Yes, I know what you're going through

Long days, black nights
Long days, black nights
Long days, black nights
Long days, black nights

Silence and empty rooms
The lesson that follows
But with no one inside
You broke the precious rules

Left with your own mistakes
Collecting the sad one's
Noises of pity now
That's all you make

But I know what you're going through
In your own world
Yes, I know what you're going through

Long days, black nights
Long days, black nights
Long days, black nights
Long days, black nights

It's too late to worry
Now time is on your hands
Who know you say
Who know you do, don't understand

Too late, too late, long days
Long days, black nights
Long days, black nights
Long days, black nights
Long days, black nights

Long days, black nights
Long days, black nights
Long days, black nights
Long days, black nights
