

# The Great Disaster

Magnum

I'll tell you something  
about the things that you should know  
and you'll learn as you grow and in turn  
Be one step further  
along the road to realise  
there's no rules, bad advice, many fools

First class performance  
to fill the lines of empty heads  
there's still hope for the dream but you don't  
Embrace disorder  
it will chill you from inside  
and destroy everything that you try

Innocent faces look up in the classroom  
soon their time will come

So beware the skillful disguises  
it's too easy to dress up in white  
for this world can be full of surprises  
from the glitter a kingdom looks nice  
you're learning there's no returning

This final blunder  
for which they all expect our thanks  
they will hide from the kill to survive  
The great disaster  
they'll take great care and will avoid  
being there 'cause it's more than they dare

Innocent faces look up in the classroom  
soon their time will come

Don't be fooled by a shining appearance  
It gets tarnished in time don't we all  
hey'll be wearing their wealth on their fingers  
and instructing us all how to fall  
you're learning there's no returning
