

Where Are You Eden?

Magnum

A picture hangs
It's always been there
To celebrate the good news
Though people talk
They don't understand
It only serves to confuse

Temptation calls
And we stand in line
Somebody calls out your name
Well you can look
But you'll never find
It's very hard to explain

Black shadows fall
Around this place
I see no door
There is no trace

Where are you Eden?
Open your gates holy thunder
Tears down my face drag me under
Wilderness swallow me

Can't mess around
The soundtrack of life
With all the rubbish they talk
And on your way
You better believe
Cause that's what you really bought

Black shadows fall
Around this place
I see no door
There is no trace

Where are you Eden?
Open your gates holy thunder
Tears down my face drag me under
Wilderness swallow me

So
Here we stand
Distant dreams
Torn apart
Don't
Cry for help
It might break
Your heart

Black shadows fall
Around this place
I see no door
There is no trace

Where are you Eden?
Open your gates holy thunder

Tears down my face drag me under
Wilderness swallow me...
