

Wild Swan

Magnum

Wild swan, follow the river
Don't fly through dangerous skies
On and on, from bow and quiver
Ride over mountains so high

Over fields and the ruin of castles
Into the evening we soar
City lights begin to sparkle
Like diamonds thrown to the floor

Fly home
It's just me and you
Your only son
Fly home
I've been waiting to
The time has come

Fly home
It's just me and you
Your only son
Fly home
I've been waiting to
The time has come
The time has come

Coming home
Coming home

Wild swan, follow the river
Don't fly through dangerous skies
On and on, from bow and quiver
Ride over mountains so high

Out to sea on the wings of heaven
Where silver cuts like a knife
Say farewell to the ships of the ocean
We travel into the night

Fly home
It's just me and you
Your only son
Fly home
I've been waiting to
The time has come

Fly home
It's just me and you
Your only son
Fly home
I've been waiting to
The time has come

Fly home
It's just me and you, me and you
Your only son
Fly home
I've been waiting to, I've been waiting to

The time has come

I'm coming home

I'm coming home

Coming home

I'm coming home

Coming home

Coming home
