

# Your Dreams Won't Die

Magnum

The game was over  
All you did was cry  
The church was empty  
They'd all said goodbye  
No one knows why this had to happen  
Oh, what a surprise  
That cold assassin  
The passing of time

Here for a time  
Keep things alive

Your dreams, won't die  
If you remember them each day  
Sweet dreams, blue sky  
They're gonna take you all the way  
I believe, in you, no lie  
Your dreams, won't die  
Your dreams won't die

So time's a healer  
Well, that's what they say  
It rings up empty  
Don't give much away  
Some go astray, some do much better  
So know who you are  
You're just a beggar  
Or bright morning star

Just think it through  
Till it makes sense to you

Your dreams, won't die  
If you remember them each day  
Sweet dreams, blue sky  
They're gonna take you all the way  
I believe, in you, no lie  
Your dreams, won't die  
Your dreams won't die

Whatever you become, baby  
Whatever you decide  
You're better off than some, baby  
Don't keep it all inside

Your dreams, won't die  
If you remember them each day  
Sweet dreams, blue sky  
They're gonna take you all the way  
I believe, in you, no lie  
Your dreams, won't die  
Your dreams won't die

Your dreams, won't die  
If you remember them each day  
Sweet dreams, blue sky  
They're gonna take you all the way

I believe, in you, no lie  
Your dreams, won't die  
Your dreams won't die
