Cuz im a mess around and... kill you  
I aint no woman beater, but I aint pussy neither  
You make me mad enough to... kill you  
Look how you got me goin  
You keep on askin for it  
You wont be happy til I... kill you

Yeah...  
Where did we grow apart? You got my fuckin child  
How did the drama start? I tried to play my part  
But you be stressing me, you pushin me  
Talk to me crazy, look how you testing me  
You bugged out, look what you did  
You made us enemies  
My blood pressure risin, im riding, drinkin Hennessy  
Thinking of multiple ways to put a hurtin on you  
I need you out of my life  
Pull the curtains on you  
You see what hated'll do?  
Look what you made me do  
Now bitch you make me so mad I wanna strangle you  
I need to pray for you, no I need to pray for me  
You make me ready to burst, the way you play with me  
Look at how you act up, that's why I backed up  
I been hoping you get hit by a Mack truck  
This the shit I contemplate  
They'll never hear you screams with a pillow to your face

You gon make me... kill you  
You keep on fuckin with me  
Police gon come and get me  
Cuz im a mess around and... kill you  
I aint no woman beater, but I aint pussy either  
You make me mad enough to... kill you  
Look how you got me goin  
You keep on askin for it  
You wont be happy til I... kill you

I used to spoil you  
Now I got a trunk and a shovel for you  
This aint what I wanna do  
This what you made me  
Can't see my son again, driving me crazy  
Back and forth with you again  
All in my place see  
Im a get it over with  
Rock-a-bye baby  
I could see it all now  
You gon get your neck broke

Im a make the news, have my face on New York One  
Standing in the courtroom, forgive me you honor  
I just had to kill my baby mama, holla  
Im a give you what you want from me  
This is what you want from me  
You gon look better girl, layin in my trunk funny  
I cant explain to my son about your death  
That's the only reason I aint push you off a roof yet  
But im a fuck around and break, I swear  
They gon find your ass floatin in the lake somewhere

You gon make me... kill you  
You keep on fuckin with me  
Police gon come and get me  
Cuz im a mess around and... kill you  
I aint no woman beater, but I aint pussy neither  
You make me mad enough to... kill you  
Look how you got me goin  
You keep on askin for it  
You wont be happy til I... kill you
