

From the mountains near the river  
Floating wild into the sea  
All my hope I now deliver  
That your light shines over me

When the night is falling, guide me on my way

Asteria, Asteria  
Almighty goddess of the stars  
I'm calling you, Asteria  
You bring greatness to my heart  
The nightshade becomes golden  
When your spirit lights the dark

As I stare into the darkness  
My emotions rising high  
I am riding through the forest  
On my journey near the sky

When your stars are shining, I can never fail

Asteria, Asteria  
Almighty goddess of the stars  
I'm calling you, Asteria  
You bring greatness to my heart  
The nightshade becomes golden  
When your spirit lights the dark

All my life I fought for justice  
With your guidance on my side

Asteria, Asteria  
Almighty goddess of the stars  
I'm calling you, Asteria  
You bring greatness to my heart  
The nightshade becomes golden  
When your spirit lights the dark
