

# Generation Steel

## Majesty

We are the sons and the daughters of fire  
Oh Oh Oh  
Live wild and free is our highest desire  
Oh Oh Oh  
We're born to rock 'till the days of perdition  
Oh Oh Oh  
Until the end we will follow that vision  
Oh Oh Oh

By thunder and lightning  
We're young and we're free  
Never, ever, ever shall we doubt what we feel  
The anthem we're singing, our words are defined to heal

Generation Steel  
We're standing here until the end is near  
Generation Steel  
One by one, forever wild and strong  
We are burning like fire, rise from the ashes for real  
We came out of the dark  
Generation Steel

We hit the stage, we all know it is true, man  
Oh Oh Oh  
Yes, with our fans we are building a union  
Oh Oh Oh  
We rule the world when we're standing together  
Oh Oh Oh  
It's in our blood, keep on playing forever  
Oh Oh Oh

By thunder and lightning  
We're young and we're free  
Never, ever, ever shall we doubt what we feel  
The anthem we're singing, our words are defined to heal

Generation Steel  
We're standing here until the end is near  
Generation Steel  
One by one, forever wild and strong  
We are burning like fire, rise from the ashes for real  
We came out of the dark  
Generation Steel

Generation Steel  
The chosen ones, we are the Metal sons  
Generation Steel  
Strength we feel, yes we will never kneel  
Generation Steel  
We're standing here until the end is near  
Generation Steel  
One by one, forever wild and strong  
We are burning like fire, rise from the ashes for real  
We came out of the dark
