

## Guidance To Death

**Majesty**

Born as a tortured sinner, let me guide you to your grave  
I was born to be the winner in this game of death and faith  
You can try to fight me but I know you gonna fail  
I will take you to a place where you can rest in peace

I know you think you're dreaming but feel my hand of steel  
It's a frightening nightmare which is now becoming real  
Your time on earth is over and there's no use to cry  
Say your final prayers 'cause now you have to die!

Your body is getting colder, your soul will be erased  
Your heart is getting older, I see fear in your face  
Your journey of life is over, say good bye to the light  
Close your eyes forever, I will guide you into the night
