

## March For Victory

**Majesty**

Heat of the night caused by flames of war  
Burning in the moonlight  
When the soldiers unite for a sacred law  
And the armies march through lands wide

In the valley the eagles soared  
And heard the trumpets report

Ride over the mountains, head to the northern sea  
Spreading the words like a fountain  
And march for victory

A mission ahead, which shall be fulfilled  
We secure the borders  
Our kingdom is strong when the blood is spilled  
Of those who fell before us

In the valley the eagles soared  
And heard the trumpets report

Ride over the mountains, head to the northern sea  
Spreading the words like a fountain  
And march for victory

Ride over the mountains, head to the northern sea  
Spreading the words like a fountain  
And march for victory  
Desolation messiah
