

Metal On The Road

Majesty

Another night, let us enter the bus
Heading down on the road
Getting out when the wheels standing still
Another city to rock

Enter the stage, dim the light of the hall
We are swearing the oath
With Metal sound, let the drums shake the ground
Let's get out of control

I'm standing, demanding
My power rising high when the crowd is screaming for me
My heart is forever free

Metal on the road
Metal on the road
Metal on the road
Out of control

We live a life full of glory and might
Heard the ultimate call
Our army's strong ev'rywhere in the world
Bound forever as one

All those girls waiting after the show
They are playing our game
After the gig when the tension is hot
They're relieving our strain

[4x Chorus]
