

Listen to this song
I want you to know it's how I feel
Tell me that I am wrong
Even if you say it, I don't care

High on LSD with you
Running up the mountain to the moon
I LOVE YOU
But I never found you, found you

Drinking downtown
Fighting other drunks in the rain
YOU ARE A CLOWN
Jumping on the tracks before the train

High on alcohol with you
Running down the mountain to the pool
I LOVE YOU

You fall down
Hit your head on the stairs
Love runs out
I want to be your angel but I can't

High on chemicals with you
Running from the faces in the snow
I LOVE YOU
But I have to let go, let go

Shame on me for it
Shame on me for you
