

Asleep

Majid Jordan

Decisions, decisions
All we ever make are decisions
Opinions, opinions
Tell me if they're facts or they're feelings

Bad news on the airways, we've all got a part to play
Guess they're trying to scare me, some things never change
Even on a good day, I can't help but feel this way
We've been making bad choices

I think 'til I fall asleep
I think 'til I fall asleep

Visions, visions
I think I'm losing my vision
Another victim...
Another victim of competition

Bad news on the airways, we've all got a part to play
Guess they're trying to scare me, some things never change
Even on a good day, I can't help but feel this way
We've been making bad choices

I think 'til I fall asleep
I think 'til I fall asleep

Sometimes I feel like we're worlds apart
I don't know where to start
There's so much fear here
Sometimes I feel like we're worlds apart
I don't know where to start
I don't know, sometimes I feel like we're worlds apart
I don't know where to start

I think 'til I fall asleep
I think 'til I fall asleep
I think 'til I fall asleep
I think 'til I fall asleep

I think until I fall asleep
I think until I fall asleep
