

## Omen Reveries

### Mandragora Scream

World without end hellish ancient age  
Drove us through last shakin' veil of fate!  
'till I found your haze in this fallin' aim  
Inklin' of slight madness, could you see?  
Holdin' this time all your shades of dreams  
Breathless on your lips  
Longin' for a kiss again!

Breathin' all your unlife...  
...Love and sigh...  
...Love and sigh...  
Breathin' all your unlife...  
Every time I die inside your rent time  
...Every time I die...

While your hands handle & embrace your dreams  
Flames of pale death, callin' reveries  
Spectral shades of claim  
Crystal tears in veins again!

Breathin' all your unlife...  
...Love and sigh...  
...Love and sigh...  
Breathin' all your unlife...  
Every time I die inside your rent time  
...Every time I die...

...Love and sigh...  
...Love and sigh...  
Lachrymal's land sigh...  
Every time I die inside your rent time  
...Every time I die...
