

Indestructible

Manic Drive

Look for a hideaway
How did I get here?
Must have become lost
While trying to disappear

Desperately in need
Of a miracle
Protect and Hold me
And never let me go
Cause in your arms I know

I'm indestructible
With your love I'm unstoppable
I'm indestructible
With your touch I'm invincible
Indestructible
And as long as You're with me
My world can crash and I'll be standing
With your love I'm unstoppable
I'm indestructible

I found a shelter
I found a hero
Open my eyes wide
To something beautiful
And when the storm breaks
I'll need your refuge so
Protect me and Hold me
And never let me go
Cause in your arms I know

I'm indestructible
With your love I'm unstoppable
I'm indestructible
With your touch I'm invincible
Indestructible
And as long as You're with me
My world can crash and I'll be standing
With your love I'm unstoppable
I'm indestructible

You are my strength when I am weak
You are the eyes watching over me
And when I fall to my knees
You are the arms that carry me
You are the hands that fight for me
You are my shield my covering
You are the veins that bled for me
You take my pain so nothing in this world can break me

With your love I'm unstoppable
With your strength I'm invincible
Indestructible
And as long as You're with me
My world can crash and I'll be standing
With your love I'm unstoppable
I'm indestructible
