

# Carry On

Manowar

**E** **H**  
The north star always guides me  
**C#m** **H**  
When winter skies are gray  
**E** **H**  
And I wait for the sun when all are one  
**C#m** **A**  
I shall not betray  
**C#m**  
Calling at me  
**H** **E** **F#m**  
I'm waiting when all are led astray

Carry On my sons forever  
Carry On when I am gone  
Carry On for when the day is long  
Forever Carry On  
For as long as we're together  
Then forever Carry On

**E** **H**  
Darkness all around us  
**C#m** **A**  
We don't close our eyes  
**E** **H**  
No one's gonna ground us  
**C#m** **H**  
We were born to fly  
**C#m** **H**  
Comin' at us no stopping  
**E** **F#**  
Born to amplify

**E**  
R: Carry On my sons forever  
**H**  
Carry On when I am gone  
**E**  
Carry On for when the day is long  
**A** **H** **E**  
Forever Carry On  
For as long as we're together  
**A** **H** **E**  
Then forever Carry On

Yea, be my brother  
Fight to stay alive  
All the world can't change us  
With all their burned-out jive  
Come get us now we're waiting  
We won't ride and hide

R:

Now we're all together  
Let's sing a fighting song  
One hundred thousand riders

We can't all be wrong  
Comin' at us no stopping  
Always Carry On

R:

**E**                    **A**    **H**    **E**  
Cary on, carry on, forever carry on...
