

# Wheels of Fire

Manowar

Since the dawn of time  
I've rolled across the earth  
Snipping in the dust  
Long before your birth  
Eatin'tar and gasoline  
Every light I see is green  
Open pipes, my machines's triple-plated chrome

Spirit of the wheel

Wheels of fire burn the night  
Ride across the sky  
Wheels of fire burning bright  
We live to ride

Motors running  
Now you're gonna learn  
Waiting on the line  
Make your tires burn  
Fast, faster, faster, faster  
Speeding always kills  
Nothing else takes us to get these thrills

Spirit of the wheel

Wheels of fire burn the night  
Ride across the sky  
Wheels of fire burning bright  
We live to ride

Blood and thunder on the road  
My heart is pounding  
My blood is nitroglycerin  
I'm fire  
Burning, burning, burning, burning  
Ready to explode  
Don't want nothing left of me to scrape off the road

Spirit of the wheel

Wheels of fire burn the night  
Ride across the sky  
Wheels of fire burning bright  
We live to ride

Clouds of smoke  
Tires screaming  
Fire in my hair  
blown into a thousand pieces  
Scattered everywhere  
Fast, burn, burning, faster  
Wanna take a ride  
Spirit of the wheel  
Wheels of fire ride  
Spirit of the wheel

Wheels of fire burn the night

Ride across the sky  
Wheels of fire burning bright  
We live to ride
