

# Silence The Freedom

Manticora

I never thought it'd come to this  
The day when freedom was raped and torn  
Burned into a cinder  
And cast away for us all to mourn

...and if I disconnect sometimes  
Just leave me be  
If I should disconnect  
Just plug me in and see

Freedom - Freedom - Freedom - Freedom!

You keep on giving in to demands  
A paradoxical right they have abused  
The parasite is slowly eating his host  
When freedom dies, you stand accused

...and if I disconnect somehow  
Don't you contemplate  
If I should disconnect  
Just plug me in and wait

Freedom - Freedom - Freedom - Freedom!

Condemn the atrocities committed in the name of the one  
Not a trace of remorse to be found  
Even if we know that man made god  
Not the other way around

...and if I disconnect again  
It's just that I'm sick of it all  
So if you plug me in  
I'll make you beg and crawl

Freedom - Freedom - Freedom - Freedom!
