The Bleedin Clown

Manu Chao

```
Em                            C      A
Cause people grim when I come 'round
Em                            C      A
and kids they call me the bleedin' clown
Em                        C    A
I used to make the children happy
Em                            C  A
now lil' girls cry when they look at me

        Em        A         Em
Im going down down down im going down
                 C            A                Em
you're laughin' you're laughin' you laugh and I'm a lonely
                 C            A                Em
you're laughin' you're laughin' you laugh and I'm a lonely

I lost my reputation crown
theres nothing o' me but a bleedin' clown
cos little girl found another boy
and left behind just a broken toy

                 C            A                Em
You're laughin' you're laughin' you laugh and I'm a lonely
                 C            A                Em
you're laughin' you're laughin' you laugh and I'm a lonely

Goes people grim when I come 'round
(you're laughin' you laugh and im lonely)
and kids they call me the bleedin' clown
(you're laughin' you laugh and im lonely)
I used to make the children happy
(you're laughin' you laugh and im lonely)
now lil' girls cry when they look at me
(you're laughin' you laugh and im lonely)

                 C            A                Em
You're laughin' you're laughin' you laugh and I'm a lonely
                 C            A                Em
you're laughin' you're laughin' you laugh and I'm a lonely
```
