

I Dream of Crystal

Maps

So, let me begin by laying down the state we're in
With the pills and the gin, I can handle bout anything
But this is out of control
Do what you like to me, but please don't hurt her man
Cos I will hit you, hard as I can
But that ain't really the plan you see

Please don't get me wrong but you can't knock what you've never
done
It ain't always fun but at least you'll be living some
So get the fuck off my case
Yeah, she is a legend, man I don't doubt that
And I will screw it up, I'm used to that
As the radio plays

You can't change this way of life
You can't change this state of mind
