I Dream of Crystal

So, let me begin by laying down the state we're in With the pills and the gin, I can handle bout anything But this is out of control Do what you like to me, but please don't hurt her man Cos I will hit you, hard as I can But that ain't really the plan you see

Please don't get me wrong but you can't knock what you've never done It ain't always fun but at least you'll be living some So get the fuck off my case Yeah, she is a legend, man I don't doubt that And I will screw it up, I'm used to that As the radio plays

You can't change this way of life You can't change this state of mind
