

You Got the Power

Marc Bolan

You got the power
You got the power
You got the power
You got the power
You got the power, the power to mend
My, my, my, my mind
You got the power, the power to look and see and
Fi-fi-fi-fi-find
Things that've been lost in the mist of kisses
Teddy bears with broken faces
Legless horses with distorted bad time nightmare faces

I wanna tell you now

You got the power
You got the power
You got the power
You got the power
You got the power, the power to mend
My, my, my, my mind
You got the power, the power to look and see and
Fi-fi-fi-fi-find

Thngs that've been lost in the mist of kisses
Teddy bears with broken faces
Legless horses with distorted bad time nightmare faces

You got the power
You got the power
You got the power
