

# Make Out with Me

Maren Morris

I got a phone that won't die  
You're up in the air landing tonight  
So I'll leave a message for you  
Get it when you touch down  
If I'm being honest I'm a little drunk now

I got a bed that's too big without you  
I got a heart that don't beat without you  
Get so jealous when you ain't by my side  
I know it's selfish but I need you tonight

So text when you touch down  
Straight to my place now  
These nights without you been so hard to sleep  
Come put your things down  
I'll order take out  
No more to say now  
Baby just make out with me  
Baby just make out with me

You got a kiss I still taste  
And I feel your lips from miles away  
I got one more minute of this message to burn  
I hope you get it, 'cause I mean every word

So text when you touch down  
Straight to my place now  
These nights without you been so hard to sleep  
Come put your things down  
I'll order take out  
No more to say now  
Baby just make out with me  
Baby just make out with me

Just like it used to be  
Baby just make out with me
