

Ways To Be Wicked

Maria McKee

Honey tell me why you smile
When you see me hurt so bad
Tell me what I did to you babe
That would make you act like that
Yes I've been your fool before babe
And I probably will again
You ain't afraid to let me have it
You ain't afraid to stick it in

You know so many
Ways to be wicked
But you don't know one little thing
About love

Yeah I can take a little pain
Yeah I can hold it pretty well
I can watch your little eyes light up
While you're walking me through hell
Yes I've been your fool before babe
And I probably will again
You ain't afraid to let me have it
You ain't afraid to stick it in

You know so many
Ways to be wicked
But you don't know one little thing
About love

Those cobra eyes
Lie with a smile
Honey you take pride
In the devil down deep inside

Well I can take a little pain
Yeah I can hold it pretty well
I can watch you little eyes light up
While you're walking me through hell
Yeah I've been your fool before babe
And I probably will again
You ain't afraid to let me have it
You ain't afraid to stick it in

You know so many
Ways to be wicked
But you don't know one little thing
About love

You know so many
Ways to be wicked
But you don't know one little thing
About love
