

I Don't Wanna See You with Her

Maria Mena

It's a small town
Word gets around
And travels in circles
Through hoops, over hurdles
Everyone's careless
They talk about our mess
They don't care how it hurts me
Must think it was easy

They say you have a new love
I'm happy for you, love
I just don't wanna meet her
Are you gonna keep her?

Cause I don't wanna see you with her
I don't wanna see her face
Resting in your embrace
Her feet standing in my place
I don't wanna see you moved on
I don't think I'm that strong
It hasn't been that long
Since I was the one in your arms

I don't like being sober
That's when it hits me it's over
Although it was my choice
I can't shake your calm voice
Saying you found one
That makes you feel as strong
And helps you through hard times
Cause that job was once mine

They say you have a new love
I'm happy for you, love
I just don't wanna meet her
Are you gonna keep her?

Cause I don't wanna see you with her
I don't wanna see her face
Resting in your embrace
Her feet standing in my place
I don't wanna see you moved on
I don't think I'm that strong
It hasn't been that long
Since I was the one in your arms

I don't wanna see you with her
I don't wanna see you with her

Cause I don't wanna see you with her
I don't wanna see her face
Resting in your embrace
Her feet standing in my place
I don't wanna see you moved on
I don't think I'm that strong
It hasn't been that long
Since I was the one in your arms

Cause I don't wanna see you with her
