Flaming September

Marianne Faithfull

The summer dying September leaves in flames. The sisters dancing No happy ending to the game. Don't bother to call me Think I'll stay here just the same.

Flaming september What can you give me that is true? Do you remember Do you remember Do you remember All the life I gave to you?

The summer dying September leaves in flames. My youth lies bruised and broken No happy ending to the game.

Don't bother to tell me I'll live on here just the same.

Flaming september What can you show me that is new? My heart remembers Do you remember Do you remember All the life I gave to you?

Flaming september What can you show me that is true? My heart remembers Do you remember Do you remember All the life I gave To you?

Flaming september. Flaming september
