Dance of the Dope Hats

Marilyn Manson

Oh that hurts Children!

I peek into the hole I struggle for control The children love the show But they fail to see the anguish in my eyes Fail to see the anguish in my eyes

I scratch around the brim I let my mind give in, yeah yeah! The crowd begins to grin But they seem to scream when darkness fills my eyes Seem to scream when darkness fills my eyes It's no surprise Alright, Charlie. But please...

Fail to see the tragic turn it into magic My big top tricks will always make you happy But we all know the hat is wearing me

My bag is in the hat It's filled with this and that My visions getting fat the rabbits just a monkey in disguise Stars and pills and needles dance before our eyes They will bite the hand if it is slower than The quickness of there scrutinizing eyes

Fail to see the tragic turn it into magic My big top tricks will always make you happy But we all know the hat is wearing me Chicanary will always make you happy But we all know the hat is wearing me

Give it to me
