Marilyn Manson

When you wish upon your star
Don't let yourself fall, fall in too hard
I fell into you and I'm on my back
An insect decaying in your little trap
I squirm into you, now I'm in your gut
I fell into you, now I'm in a rut
"I lift you up like the sweetest angel,
I'll tear you down like a whore.
I will bury your god in my warm spit,
You'll be deformed in your porn"
Rock star, yeah (you're such a dirty, dirty)
Rock star, yeah (dirty, dirty, dirty)
You eat up my heart and all the little parts
Your star is so sharp
It leaves me jagged holes
I make myself sick just to poison you
If I can't have you then no one will

[chorus]

You are the one I want and what I want is so unreal
I'm such a dirty Rock star yeah...
(I am the one you want and the one you want is so unreal)
