

I'd Do It All Again

Marit Larsen

Seventeen, big dreams
Wide awake, no sleep
Limelight, silver screens

I took a dive, head first
Like a bubble, I burst
Didn't think till it hurt

I've been up so high
Been down so low
Been held on tight
I've been let go
I've been tried and true
Made a fool
But I wouldn't change anything
I would go back
And do it all again

Twenty-four, a little more
Open heart, open doors
Never been so sure
As when I met him

Sold the truth, told a lie
Didn't fight, never tried
Only held what was mine
What was I thinking?

I've been up so high
Been down so low
Been held on tight
I've been let go
I've been tried and true
Made a fool
But I wouldn't change anything
I would go back
And do it all again

Every sting, every scar
Every stop, every start
All the things that might have been
I would go back and do it all again

I've been up so high
I've been down so low
I've been held on tight
And I've been let go

I've been up so high
Been down so low
Been held on tight
I've been let go
I've been tried and true
Made a fool
But I wouldn't change anything
I would go back
And do it all again

But I wouldn't change anything
I would go back
And do it all again
