

# Running out of Road

Marit Larsen

I didn't see you coming  
I didn't see you go  
I didn't know I want you so  
I wish that I didn't notice  
When the moment was a lie  
Instead of them the corner of my eye

I Didn't know what I've been missing till then  
Did you walk through my door?  
I've been very busy  
Lost in tunnel vision  
And I keep running out of Ro-o-o-ad

I should've seen you coming  
I should've seen you go  
I should've known I missed you so  
All the radio's silence  
Rings in the morning light  
Your sleepy head still with me through the night

I Didn't know what I've been missing till then  
Did you walk through my door?  
I've been very busy  
Lost in tunnel vision  
And I keep running out of Ro-o-o-ad  
Now I'm running out of road

I didn't see you coming  
I didn't see you go  
I didn't know I want you so  
I wish that I didn't notice  
When the moment was a lie  
Instead of them the corner of my eye
