

Winter Never Lasts Forever

Marit Larsen

Set your little heart on fire
Go on, step into the dark
You will never lose your way
No matter how far you stray

Fall into your own desire
She can be a lovely liar
She can tell the deepest truth
Make and take the best of you

Broken hearts can keep on beating
Broken hearts can keep on beating
Bend and break and keep believing
Broken hearts can keep on beating

Cling to what you want to know
Sometimes that means letting go
Winter never lasts forever
Pain will change
And hope will grow

Broken hearts can keep on beating
Broken hearts can keep on beating
Bend and break and keep believing
Broken hearts can keep on beating

Broken hearts can keep on beating
Broken hearts can keep on beating
Bend and break and keep believing
Broken hearts can keep on beating

Beating, beating, beating...
