```
Dm
Somebody's gotta crack a whip around here
Dm C G
Who's minding the store?
Shake it up sell some beer
What's your money maker for?
Pay day, we're packin' 'em in
Dm C
             G
Six-gun annie and buffalo jill
          F
But who's to say they'll be back again
C B
For a refill?
                  B F B F B
Honey, you know the drill
Ain't no left turn down sleepy time street
You gotta be fast but you gotta stay loose
Thinking on your feet
Slick as grass through a goose
Dm
We gotta rationalise
Dm C
          G
The payroll is giving me chills
B F
          С
You and me's getting organised
It's kill or be killed
                 B F B F B
Honey, you know the drill
              F
Well they can all look down on sucker row
But they all forget
The tallest trees from acorns grow
Though they ain't yet
I never look down on a sucker stake
        F
They all pay the bills
I never gave a sucker an even break
And I never will
```
