Summer of Love

Mark Knopfler

Daddy says I'll never get the roadster What does he know I just can't make it here in Squaresville Daddy-O Pretty on the inside and the out She's the ride I'm wild about The only one I'm dreaming of Summer of love

Daddy says I'll never get the roadster What does he know We drive to where the sky is wide And the moon is low When I shut her down the night feels cool I tell her she's beautiful A million stars all swarm above Summer of love Whoa, summer of love

Summer days hot and dry Hot as firecrackers on the Fourth of July Summer nights passing slow Gas her up Daddy I'm ready to go

Daddy says I'll never get the roadster What does he know We drive to where the sky is wide And the moon is low When I shut her down the night feels cool I tell her she's beautiful A million stars all swarm above Summer of love Whoa, summer of love
