## **Big White Cloud**

**Mark Lanegan** 

When I stand, my back to the sea A big white cloud, looking right down on me Sound of sun, missing my eyes Everything's clear, everything's bright

Big white cloud, big white cloud Big white cloud on me Big white cloud, big white cloud Big white cloud on me

Time to kill on the hill Looking at bees, licking the trees Looking for signs

Oh how I love you Yes how I love you Oh how I love you so

Oh how I love you Yes how I love you Oh how I love you so

After all is said and done Everything, is just like it began Days that came, years again Came in here once again

Oh how I love you Yes how I love you Oh how I love you so Oh how I love you Yes how I love you Oh how I love you so
