

All Gone

Marquess

I wonder how you feel
The moments you're alone
I wonder if it still feels good
No disguise
No more lies

The past you just ignore
Erase the memories
There's nothing worth to keep at all
Just forget
No regret

You go on like this, I know
You cannot resist, time will show
That whatever happens
You move on
We're all gone

You keep up the head 'til the end
It's your way of life, you pretend
That whatever happens
You move on
We're all gone

The ways we can be fooled
When choosing not to see
Convince ourselves it can't be real
If it hurts
When it hurts

The stories that you told
The laughter and the smiles
Pretending that you really cared
That you cared

You go on like this, I know
You cannot resist, time will show
That whatever happens
You move on
We're all gone

You keep up the head 'til the end
It's your way of life, you pretend
That whatever happens
You move on
We're all gone

(All gone)
(We're all gone)

You go on like this, I know
You cannot resist, time will show
That whatever happens
You move on
We're all gone

You keep up the head 'til the end

It's your way of life, you pretend
That whatever happens
You move on
We're all gone

(We're all gone)
(Gone)
(Gone)
(All gone)
(We're all gone)
