

Todo bien Mariha

Marquess

Follow me into the right direction
Follow me into the sun,
Into a place that we call heaven
Where no ones got to run,
How many times did we fail to recognize
And how long times we have been waiting for surprise,
No I have come to this advice
lets honor the past and keep on moving to the light.
(So she says lets pack our bags)

(Spanish Chorus -- will update later) x2

Come with me into the right direction
Follow me into the sun
To a place called heaven
Where no one ever runs
How long time we have been fighting
For the right thing
How many times did we fail
To look inside that
Now I have come to this surprise
I love the past but keep on moving to the light

(Spanish Chorus -- will update later) x2

Let's honor the past and keep on moving to the light
