

Let Out

Marsha Ambrosius

Whatever you want
After popping some bottles in there
We can both disappear, ride into the sun

Right after they cut all the lights and we in for tonight
It's my place or yours
Waiting for the crowd to clear as you pull me in closer
Whisper in my ear, my dear
Oooh I need you right here tonight

(Whisper where it's supposed to go)
It's time for us to go
(wherever you wanna go, boy just say so)
Just say something baby (now, now)
Let Out
Let Out
Let Out
Time to get out
Let Out
Let Out
Let Out
Time to get out of here

And I wanna leave here with you my dear
You can do whatever you want babe
Already been so into you
Under the influence of all the kush yeah
Right after they cut all the lights and you still looking right
I know what I want
Waiting for the smoke to clear as you pull me in closer
Whisper in my ear, I'm right here
Oooh I need you right here tonight

(Whisper where it's supposed to go)
It's time for us to go
(wherever you wanna go, boy just say so)
Just say something baby (now, now)
Let Out
Let Out
Let Out
Time to get out
Let Out
Let Out
Let Out
Time to get out of here

And I wanna leave here with you my dear
And I wanna leave here with you my dear
Let out
Let out
It's time to get out
