

# Streets Of London

Marsha Ambrosius

Hello  
Goodbye  
On these streets of London  
Many come and many go  
But my heart will stay forever  
Don't you know don't you know  
Streets of London never let me go

It's pretty in the outside  
Grey skies remind me of you  
I'm waiting on the sunshine  
So blue  
I remember when we first fell in love yeah  
Clouds above let it rain  
Let rain oh  
Let it rain let it rain oh  
It's a pity on the inside  
I cry over you  
I'm waiting on my sunshine  
I do  
I gotta tell you how much I miss you so yeah  
Clouds above  
Just let it rain  
Let it rain oh  
Could you let it rain let it rain oh

On these streets of London  
It's a place that I call home  
Where the strong only survive  
Where you make it on your own  
On these streets of London  
Many come and many go  
But my heart will stay forever  
Don't you know don't you know  
Streets of London never let me go

On these streets of London  
It's a place that I call home  
Where the strong only survive  
Where you make it on your own  
On these streets of London  
Many come and many go  
But my heart will stay forever  
Don't you know don't you know  
Streets of London never let me go

I remember how it used to be  
When every day was summer  
My mama said that I'd grow up to be  
Anything I wanna  
Day dreaming is my reality  
Chase the clouds above  
And make it rain  
Make it rain oh  
Yeah I'm a make it rain  
Make it rain oh  
La la la la la la la la

I wanna go home  
La la la la la la la la  
I wanna go home  
La la la la la la la la  
I wanna go home  
La la la la la la la la  
Home is where the heart is  
Where's my heart
