

Falling Down

Marta Sánchez

Going down going down
In a river like you
Going down going down

Going down going down
In a river like you
Going down going down

But i know it from the motions that I would fall for you
I remember when the sky was so dark
So dark for you

I knew it
I knew it
I knew it

Falling down falling down
In a big heart like you
Falling down falling down

Round and round round and round
In a whirlwind like you
Round and round round and round

But i knew it from the start that I would fall for you
I remember when the time were so dark
So dark for you

I knew it
I knew it
I knew it

But i knew it from the motions that I would fall for you
I remember when de sky was so dark for you

I knew it
I knew it
I knew it

For life I will fight
For love
I'm swimming in a river
Like you I'm swimming
In a river like you
In a river like you
