

## Around the Bend

Martha Wainwright

I've been going 'round the bend  
I've been taking lots of pills and things  
I'll been seeing him again

There are things I've seen and done  
That I would not wish on anyone  
I go to bed at dawn  
When you'd wish it would rain  
Wash away the pain

I used to do a lot of blow  
But now I only do the show  
I like to get paid  
I never get laid  
People are too afraid

Watch out for my white lies  
Watch out for my creativity  
I've been around the world and back again  
I still can't get those cards to win

Let it ring  
Let it sting  
Think of the little children  
Love is not what you thought it was  
Bring back the night we met  
Remember what my eyes looked like then  
And why you thought that I was the one

I can never see you again  
'Cause I have done everything I can  
To do the right thing  
Now let the pendulum swing  
To the wrong side of things

Watch out for the night sky  
Playing tricks on your mind  
Watch out for my white lies  
Been around the world and back again  
I still can't get those cards to win

I've been going 'round the bend
