

Bleeding All Over You

Martha Wainwright

There are days when the cage
Doesn't seem to open very wide at all
There are others that would shock
The most indiscriminate lovers of all
My heart was made for bleeding all over you

You've got a girlfriend and I can only
Talk about her for so very long
Then my mind turns into my heart
And whispers into that dark cave that I've been wronged

My heart was made for bleeding all over you
And I know you're married but I've got feelings too
But I still love you

You moved up North and got a farm house
There's cow shit in your brain and love in your heart
I'm in the city and I'm trapped between
Two buildings then having to start at the start

You've got a daughter, now you're a father
You have your pack and they are wild

My heart was made for bleeding all over you
And I know you're married but I've got feelings too
And I still love you
I still love you

I've got feelings too
And I still love you
Yes, I still love you
