## **Call the Gypsy**

## Masterplan

Riding through the black of night, to bring you to my knees To beg forgiveness for your souls, and never left alone Dress your bodies black and white, won't you pray for me Just a memory in time... it never lies Beg for mercy in my eyes Call the gypsy... Put your mirror on the wall Throw your earth into the grave, and wipe your tears away Just your sorrow blindly gave... Bring peace to me Beg for mercy on this day Call the gypsy... Put your mirror on the wall Calling all you... Listen for your dying call Call the gypsy... I'm waiting for your dying call
