

Sway

Mates of State

I kinder as the summer beats around me It reminds me when I could not let To live an inside life, I need escaping A grown up world, oh

Lying in a blessed foray, Every dance is always the same When the emcee calls your name You know you're gonna be prepared

Please sway with me, I take comfort in what used to be Testing on me, Many lifeforms in the dirt, breaking out in bravery

Watching clouds turn into black light Birthing out inside in first light You sit there long enough and still enough You'll see a hole punch in the sky

Come and see the beautiful view, Flicker in and out of our youth Forming patterns in the sky You know what papermoon don't lie

Please sway with me, I take comfort in what used to be Testing on me, Many lifeforms in the dirt, breaking out in bravery Oh, oho, oh, oho.
