

So I Say Goodbye

Matt Costa

So I say goodbye to you
And think of when the skies were bright
Time to time it's come to pass
Time to time it moves so fast
But it was beautiful

So I say goodbye to you
So I say goodbye to you
Just a slide show in my mind
Watch it as it flickers by on by

Cause we can only get so high
We can only get so low
Until we're digging a hole

So I say farewell to you
Driving down the 101
Passing strangers in their cars
Chain smoking blue spirits
Like we used to do

So I say goodbye to you
So I say goodbye to you
Just a slide show in my mind
Watch it as it flickers by on by

Cause we can only get so high
We can only get so low
Until we're digging a hole

There's a fire in my mind
Dropping ashes on the night
So I say goodbye
So I say goodbye
